What Every Seventh Grade Parent Should Know

As your child enters into his or her final academic year with us at CJEG, you should be feeling proud (look at all my child has learned!) and relieved (no more getting up early on Sunday mornings)! You will be invited into the classroom for a "Meet Your Children" class, which is interactive and informative.

Good attendance is very important, since there are many topics to cover in the curriculum.

We need one or two parents to act as class parents, in order to help plan and coordinate graduation activities. Please contact Charlie and let him know if you are interested in doing this.

Graduation is our culminating activity, and for many years the seventh grade parents have taken great pride in being involved with making it a huge success each year. Each family is asked to contribute \$100.00, which will be collected by the class parents in January/February. This is used to reimburse people who purchase food items and decorations, and for gifts for the graduates, Charlie, and the student aide.

Beginning Hebrew lessons are from 8:30-9:30, and advanced lessons are from 11:30-12:30. These will begin on the first day of class, September 11th. Please contact Charlie for additional information.

Graduates are given the opportunity to be volunteer student aides. Your child can let Beth know if they are interested in the Spring.

Thanks in advance for your participation and cooperation.
